

Dear (insert name)

I would like to nominate Children's Liver Disease Foundation (CLDF) as (name of company's) chosen charity/charity of the month/charity of the year (delete as applicable).

CLDF is dedicated to fighting liver disease in children, something which affects up to 20 more children each week in the UK and for which there is no cure.

A diagnosis turns families' lives upside down. It means a lifetime of medical care, maybe a transplant. CLDF is there for these children and their families from the start, providing vital information, emotional support and funding research into treatment.

I have personal experience of this charity's work because (supply detail or delete if not applicable).

CLDF is reliant on voluntary donations and is the only charity in the UK dedicated to fighting all childhood liver diseases.

More information is available here [Children's Liver Disease Foundation | Liver Disease Research and Support \(childliverdisease.org\)](https://www.childliverdisease.org)

Yours sincerely
